Equipment Rentals

COFFEE TRAILERS

- Small Trailer: 8.5 ft W x 11.3 ft L x 8 ft H
- Large Trailer: 8.5 ft W x 13.3 ft L x 8.5 ft H
- Large White Unbranded Trailer: 8.5 ft W x 13.3 ft L x 8.5 ft H
- Rental: \$1,500 per day (equipment not included)
- Cleaning and delivery/pickup fees apply

Our coffee trailers are transported using a Toyota Tundra or Ford F150. We're able to drive onto paved areas, courtyards, or sidewalks that can accommodate a vehicle. If the setup area includes grass or standard-height curbs, we can access these as long as the surface is firm and dry. For limited access areas, venues may provide wood planks to support the trailer's weight. Once the trailer is in place, the truck will be relocated to a designated parking space. Early drop-offs or overnight setups are available for an additional fee.

Please note: We are unable to position trailers on soft or wet grass, sand, or moist dirt due to safety concerns and the risk of equipment damage. Trailers may sink into soft ground during service, especially with baristas working inside. A site visit can be scheduled in advance to assess feasibility and ensure safe setup. Dry desert ground or sand is typically not an issue.

MOBILE WOOD COFFEE BARS

- Size: 4 ft L x 2.5 ft W (requires 8 ft x 8 ft space with back table)
- Rental: \$450 per day (equipment not included)
- Our wooden coffee bars are mobile and can be rolled via dolly on solid surfaces. They fit into elevators and are ideal for indoor or paved venue areas. For grassy setups, we'll use a push cart to transport the bar safely, as the smaller wheels are not suited for soft ground.

POWER REQUIREMENTS

- For events under 145 guests, one 110V outlet is required. For events exceeding 145 guests, we recommend two 110V outlets.
- Moonwood provides generators for all events where power is unavailable. We also supply 200 feet of extension cords and gaff tape for safe and secure cord placement. If additional extension cords are needed, clients are responsible for supplying them at the event site.
